Enclosed Blade Safety Knives	3
Disposable Safety Knives	6
Retractable Blade Safety Knives	8
Sharp Safe Waste Disposal	10
Accessories	11

It's a fact that hand knives can be dangerous. This includes their use at work. Warehouses, Retail, or any location where the removal of packaging is involved, are high risk areas for hand cuts. Most of these injuries, ranging from minor cuts to serious lacerations, are due to the knife slipping during cutting. And, to think a simple safety knife could prevent this.

Moving Edge, a brand of COBA Europe, is a leading name in the safety knife industry with a reputation for innovative, high-performance product design. We have developed a user-friendly range that includes both 'enclosed' and 'retractable blade' safety knives, as well as many handy accessories.

We bring our customers choice and product support, and are continually introducing new lines. Our new metal version of the AutoSafe, the AutoSafe Pro is one example, and is ideal for demanding conditions. Fewer blade changes mean reduced risk of injury. That is exactly what is achieved with our new Ceramic Blades that last up to 10 times longer than standard stainless steel.

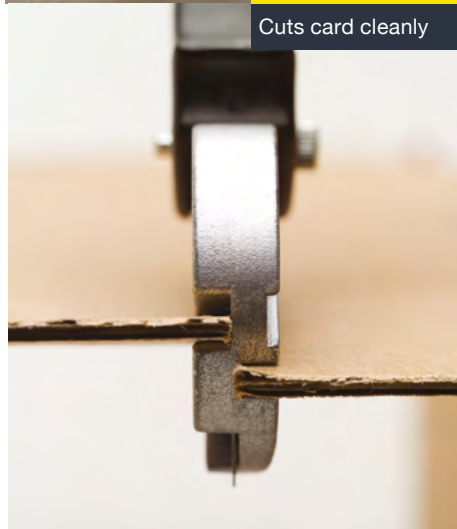

Cut safely, choose wisely - use Moving Edge

**cutting edge
safety**

Ergonomic handle

Cuts card cleanly

GR8 Pro

Heavy duty safety knife with tough metal body suitable for the most demanding applications. Makes light work out of cutting cardboard, shrink wrapping and strapping. A metal detectable version for use in food production is also available.

- Pocket and finger safe - enclosed blade prevents accidents.
- Built-in tape cutter.
- Swift blade change prevents extended down-time.
- Sheffield Stainless Steel blades.

Product	Part Number
GR8 Pro Red Handle Knife	741242
GR8 Pro Green Handle Knife	742242
GR8 Pro Yellow Handle Knife	743242
GR8 Pro Blue Handle Knife	744242
GR8 Pro Black Handle Knife	745242

GR8 Range Blade Options

Standard GR8 Blade with Tape Cutter

Standard GR8 Blade without Tape Cutter

GR8 Pro Food Safe

All the components used in the construction of the Food Safe Pro are metal detectable. The **GR8 Pro Food Safe** is perfect for low risk areas such as goods in / out where the use of a heavy duty metal detectable unit is required. For higher risk areas it is recommended to use the **Dispo Lite Food Safe (page 6)**.

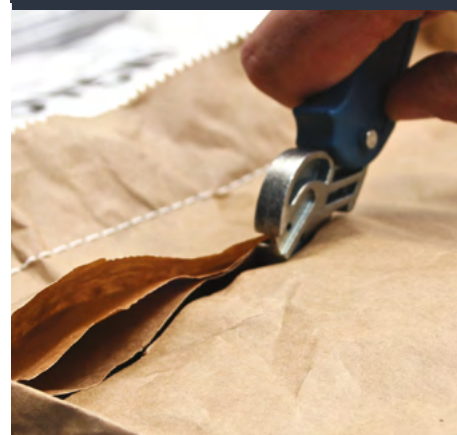

The GR8 Pro Food Safe is available with the following to suit your application.

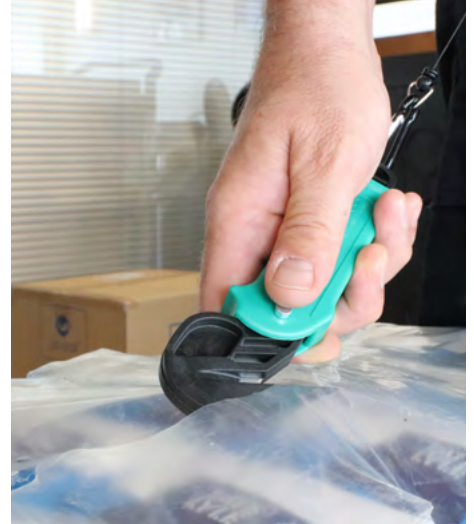

Product	Part Number
GR8 Pro Food Safe Knife	746242

- Available with a removable blade change pin, or a fixed pin to eliminate the chance of blade changing in production areas.
- The option of blades with or without tape cutters.
- Sheffield Stainless Steel blades.
