

Ceramic blade

Part No. **660010X10C**

Ceramic up to 10 x longer than traditional stainless steel blades.

- Safer in comparison with traditional metal blades.
- Fewer blade changes means less hand injuries.
- Doesn't rust, chemically inert, non-porous and nonmagnetic.
- Does not conduct electricity.
- Anti-stab blade.

The ceramic blade can be used for the following knives:

Autosafe

Autoslide
